

## *Assembling a Disaster Preparedness Kit*

Pages 7 and 8 of your **GET READY** manual list the equipment and supplies you should have on hand in order to be prepared for a disaster. To help make sure everyone can be prepared, Knight's Hardware in Tiburon is stocking all of the supplies on the list and will assemble as many, or all, of them you need in order to ensure that your family's Disaster Preparedness Kit will be ready.

### **To order from Knight's Hardware:**

1. Check the products on the attached order form that you would like to have included in your Disaster Preparedness Kit.
2. Fax (435-7083) or deliver (1650 Tiburon Boulevard) the list to Knight's Hardware in Tiburon for preparation and assembly.
3. Call Knight's Hardware (435-4603) to provide credit card information.
4. Be sure to include your name and telephone number on the order form. Knight's Hardware will call you when your kit is ready.

## *Disaster Kit Notes*

**Storage:** The base-kit materials should be stored in two waterproof (re-sealable) five-gallon plastic containers. The materials may have to be moved quickly from one location to another. It is easier to carry a five-gallon bucket in each hand than a larger container. In addition to providing safe storage, these containers will be important for transporting water and sanitary materials. They can be used as benches, tables and toilets. Be sure to store all disaster materials in a location that can be easily accessed in the event of an earthquake or other emergency.

**The Leatherman Juice Pro** (\$32.00) is a multi-purpose tool loaded with everything from pliers, knives and screwdrivers to scissors and a professional style corkscrew.

Doors and windows can become jammed in an earthquake. A **Wrecker Pry Bar** (\$22) is useful for opening jammed doors, removing decking, siding, fencing and shingles. It has push-pull action. A 30" pry bar with a 6" rocker head should be sufficient for most needs.

**Freedom LED Hybrid Flashlight:** (\$16.00) Shaking this flashlight causes a magnet to pass through a copper coil, thereby generating electrical power. The capacitor can be charged over 100,000 times. This is an excellent backup to standard battery-powered flashlights.

**Eton FR300 Multi-Purpose Radio:** (\$50.00) The FR300 is a combination emergency radio, light, and cell phone battery charger. The Hand-Crank Power Generator charges the internal rechargeable Ni-MH battery pack. With the NOAA weather channels and TV-VHF channels, you can find weather forecasts or listen to TV shows when you're away from the set. We recommend that you read the user reviews on Amazon before ordering one of these units. Also, be sure to check that the cell phone adapter works for your particular cell-phone. This radio may be ordered by going to: [www.amazon.com](http://www.amazon.com).
